

10. 為何 Adobe Reader X 或 XI 開不到 PDF Portfolio ?

您需要 Flash Player 才能在您檢視的 PDF 或「PDF Portfolio 文件夾」內檢視某些內容。PDF 可能包含動畫或影片等媒體，所以需要 Flash Player 才能顯示。Adobe Reader X, XI 不再隨附 Flash Player。請確認您的電腦符合以下註解的系統需求，然後使用提供的連結下載和安裝 Flash Player。

You need Flash Player to view Flash content in PDFs, PDF Portfolios, and other features. Adobe Reader and Acrobat no longer include Flash Player and features that require Flash now leverage the machine's local copy of Flash. This new strategy allows users and administrators to manage Flash Player updates independently of Acrobat product updates.

Note that the Flash Active X component is not enough to display this content. A full Flash player must be installed.

That is a possible reason. Adobe Reader and Acrobat version 9 included Flash Player but this is no longer true for Adobe Reader/Acrobat XI (or X).
